Various perspectives and possibilities for personal development

Flexible working hour arrangements

Unique and engaged colleagues

Our offer

- As Labelling and Technical Publication Specialist, you play a central role in the creation and maintenance of labelling (IFUs, Labels) in collaboration with R&D, RA and other stakeholders from different locations in accordance with relevant standards and regulatory requirements, and manage cross-functional projects.
- You are responsible for quality review of labelling documents, coordination of the review and approval process of labelling documents.
- You coordinate labelling translations in cooperation with EMEA colleagues and the translation agency, including QA inspection and approval.
- You publish labelling and collateral material on different repositories and coordinate the print process of IFUs.
- You also prepare monthly reports and metrics and maintain the process to keep high level of quality (eg. NC/CAPA).

Your profile

- You hold a Bachelor/Master Degree in life sciences or equivalent in a scientific/technical discipline.
- You have minimum 4 years of experience in a similar role (labelling or RA affairs), preferably in the Medical Device or Pharma Industry.
- You possess solid knowledge of Standards and Regulations regarding medical devices and labelling (US and EU).
- You are confident in using desktop publishing and graphic programs (e.g. Adobe InDesign, Photoshop, and Illustrator) and quickly learn to use new softwares and systems/databases.
- You value an international working environment where you can use your excellent command of English; any other EU language is a plus.
- You are organized, team-minded and service oriented, able to multi task in a quick-paced environment and possess excellent planning, organizational and project management skills.

We are looking forward to your online application via our career page, reference number 22305BR.
