Sr. Project Engineer Advanced Operations (f/m)

Advanced Operations • La Chaux-de-Fonds • Start January 2018 • Position permanent

Your Talent – our passion as a Top-Employer in MedTec!

33.000+ employees

5.638 patents

\$ 11.3 Billion turnover

Various perspectives and possibilities for personal development

Flexible working hour arrangements

Unique and engaged colleagues

Our offer

- You are responsible for the process development and transfer of New Product Innovations from Product Development into serial manufacturing. Within your projects and as a single point of contact in La Chaux-de-Fonds you act as the main contact person for all project stakeholders and our international R&D teams.
- As an experienced and assertive technical expert, you are responsible for the development and implementation of new technologies and manufacturing/inspection processes to ensure a safe and efficient supply chain.
- You manage the definition and introduction of new capital equipment and support the associated qualification and validation activities.
- You work on validation concepts, create the corresponding documents and evaluate the process capability.
- As project leader, you employ project management best practice to reduce product time to market whilst adhering to regulatory requirements, project deadlines and product costs.
- You enjoy working in a cross-functional, virtual & results oriented team environment where flexibility is essential.

Your profile

- Bachelor or Master degree in an engineering discipline with two or more years' experience in a technical role. Deep knowledge about manufacturing processes is mandatory.
- You have knowledge in process development, inspection strategies, project management and a good understanding of process optimization.
- Experience in an FDA regulated or other regulated industry and deep understanding in GD&T, process validation and risk management are beneficial.
- You are an assertive, innovative, self-driven and open minded communicator with excellent interpersonal skills. As a team player, you can collaborate effectively with multi-disciplinary teams. Your excellent analytical skills help you to organize.
- Fluent in English and French is mandatory, German is an advantage.
- High level of PC Skills required (MS Excel, PowerPoint, MS Project).
- Driving license highly recommended, as travel activities up to 20%.

We are looking forward to your online application via our career page, reference number 26353BR.
