Our offer

- In your new role as Senior RA Specialist you organize and implement strategies and activities required to procure regulatory approval for new and revised product lines.
- You ensure compliance to all US, EU and international requirements and corporate policies and procedures regarding submissions and other requirements for market approval of medical devices/combination products.
- You apply scientific principles to understanding safety and efficacy on a wide range of products.
- You interface and coordinate with the FDA, Notified Bodies and other regulatory agencies on submissions, approvals or other issues.
- You support R&D, marketing and manufacturing teams in regulatory assessment of proposed changes or product transfers.
- Moreover, you participate in cross functional team activities from initial stages through securing government approvals for any initiative and project requiring Regulatory Affairs support.

Your profile

- You have a Bachelor's Degree in a scientific discipline. Ideally, you dispose of a RAC certification.
- You have a minimum of 2-3 years' experience in a highly regulated industry and you have working knowledge of Medical Device Regulations (FDA/MDD required, additional international a plus).
- You have gained experience with 510(k), EU MDD 93/42/EEC Technical File/Design Dossier preparation.
- You have successfully interacted with FDA and notified body reviewers/inspectors and you have a sound understanding of scientific principles.
- You are characterized by strong interpersonal and communication skills. Moreover, you have excellent organizational and planning skills.
- You are fluent in English and have ideally a good knowledge of German.

We are looking forward to your online application via our career page, reference number 27673BR.
