

Geistlich Pharma lives out its deeply-rooted values.

Giselle Richterich,
International Product Manager

Exciting challenges await on the path to realizing our vision. We are therefore seeking

Clinical Science Manager Surgery

Root

Your tasks

- > Maintaining all clinical information to support regulatory filing
- > Supporting scientific and clinical communications to ensure clinical papers and manuscripts are accurate, complete and submitted for publication in a timely manner
- > Working closely with all internal stakeholders to ensure correctness and consistency of scientific communication towards all target groups
- > Promoting and developing internal education and scientific training

Your qualifications

- > A life science degree is essential and preferably an advanced research degree
- > Experience in the field of medical devices and specifically strong experience in clinical studies and medical writing, preferably in orthopaedics
- > Proven written and verbal communication skills in German and English language
- > Being confident in presenting scientific information
- > Flexibility and readiness to travel

Geistlich Pharma is a family-run Swiss company and a longstanding global leader in regenerative dentistry. We have a long tradition of pioneering attitudes that place the focus on employees. These employees are dedicated to the spirit that drives our company to excel: a passion for regeneration. This is the origin of our innovative medical products that reconstruct bones, cartilage and soft tissue. Our motivated team looks forward to working with you in a modern, dynamic environment with international flair.

We look forward to receiving your completed electronic application at: recruiting@geistlich.ch

If you have any questions about the position, please contact: Margareta Schurtenberger, HR Specialist, 041 492 55 55
