Based on our site in Hügendorf we are looking for a highly committed:

## Production Planner (1905714635W)

The Production Planner has "apply" level production planning functional skills per the Johnson & Johnson Supply Chain (JJSC) competency model. This position is responsible for creating and maintaining a constrained weekly master production schedule (MPS) and handling the frozen period horizon for all possible production requirements (scheduling, rescheduling, reworks, outsourced work-in-progress inventory) over an 18-month horizon. The planner will also be responsible for providing service & inventory input to manufacturing issues and communicate potential impacts to key business partners.

### You will be responsible for:

- Creating a constrained weekly master production schedule (MPS) and ensuring raw material availability.
- Planning and freeze period management of production activities (rescheduling, rework, outsourced work).
- Maintain inventories within goal, while minimizing excess, obsolete and expired products; develop overall inventory projections for specific products.
- Perform Rough Cut Capacity Planning (RCCP) for resources, shifts, equipment and shutdowns.
- Plant inventory management and control.
- Resolve manufacturing conflicts for site/portfolio as they relate to production planning. Manage impact and communication of manufacturing driven change.
- Lead/support all compliance process activities including change control, deviations, events & nonconformance reports and assess supply impact.
- Provide asset specific input to the end to end supply chain processes and ensure planning master data (safety stock, lead times, etc.) in the ERP system are accurate and up to date.
- Participate in new product launch meetings and new product forecasts as a business partner.
- Execute planning activities during phase-in phase-out programs.

### Qualifications

- You have a university bachelor's degree or equivalent
- Supply chain certification (APICS/ IBF) is desirable
- 0 - 5 years related experience
- Experience with ERP (e.g. SAP) and Microsoft Excel
- Production planning or manufacturing experience in a medical, pharmaceutical or consumer industry
- Familiarity with relevant legislation (e.g. GMP, ISO requirements) is desirable
- You are native German, with fluent English!

## Interpersonal skills

- Ability to apply project and personal leadership to successfully achieve project, team and individual goals.
- Ability to share knowledge and personal experience with peers.
- Ability to build strong collaborative relationships, considering diverse perspectives and styles.
- Ability to target communications as appropriate for the audience and make presentations to a small to medium-sized audience.
- Ability to influence others in a matrix environment.
- Ability to challenge the status quo and evaluate/improve processes using continuous improvement
- Data mining & reporting skills through MS Excel or equivalent.
- Strong organization skills and an aptitude for planning.
- Accuracy with attention to detail.
- Proactive approach.
- Proficient user of Microsoft Office, Excel, Word, PowerPoint.
- Ability to translate complex situations into simple working solutions.

If you feel attracted by this challenge and want to be part of a successful and growing organization with excellent working conditions then please send us your online application (CV, Motivation Letter, Working References etc.) by clicking [here](#).
