YOU

Transport Operations Analyst Return-to-work Program

Locations: Zug

Functions: Operations functions

Requisition ID: 00001FJC

Did you take a break from the professional world to pursue other priorities? Do you want to develop technologies and create solutions that significantly improve patients' lives? If you are an experienced, high-caliber STEM (Science, Technology, Engineering and Math) Professional eager to return to the professional world after a break of two or more years, this "Re-Ignite" Career Program is for you.

This four (4) month paid returnship that comes with a possibility of moving into a permanent role, is a part of our Re-Ignite Career Program and will refresh your technical skills while you work with a market leader in healthcare. In addition to key job responsibilities, we provide technical training, professional development, and peer mentoring and the possibility of becoming a full-time employee after completion of the program with the most dynamic health care organization in the world, Johnson & Johnson.

You will have the opportunity to work within our **Transportation Services** department who strives to deliver an exceptional customer experience through leading critical customer facing-functions such as distribution, customer services, logistics and transportation across Johnson & Johnson Family of Companies.

In this role, you will be responsible for the strategic and operational oversight of Regional Transportation to ensure reliable supply of local Distribution Centres and Hubs from Manufacturing, to maximize value for J&J. You will collaborate and partner with different departments and functions to strive for reliable day to day inbound operations in support of required service to the Customer.

To be considered for this position, you should have experience in Supply Chain and Transportation, or a track record of strong planning & organisational skills combined with analytical capabilities. You will also be a natural connector and can navigate through complex environments.

This is what awaits YOU at J&J:

- ✓ High touch onboarding experience
- ✓ In-depth training materials
- ✓ Assigned mentor
- ✓ Technical peer support
- ✓ Alumni support
- ✓ Re-Ignite Cohort

We would love to hear from YOU, if you have:

- A current career break of two or more years
- Completed professional education in the field of STEM (Science, Technology, Engineering and Math)
- Previous working experience in the Health Care industry
- Fluent English, good speaking level in German is an advantage

The Re-Ignite Program is designed to increase the pipeline of STEM (Science, Technology, Engineering and Math) talent who are returning from a two or more-year career break. This program provides the opportunity for professionals to get back into the workforce at a later life stage and offers a powerful return-to-work strategy for individuals.

If you are ready to re-launch your career and are looking to grow and stretch with new opportunities, The Re-Ignite Program is for you.
