

Microsoft Student Partner Program Central Europe

(Austria, Germany, Netherlands, Switzerland)

Microsoft Student Partners are the future of technology!

Senior Student Partner (m/f) for the Microsoft Student Partner Program in Switzerland

Job Type: Intern / Working Student / 8h/week

Location: Due to the responsibilities and support of regional Microsoft Student Partners in Switzerland and area of Zurich the candidate should reside or study in this area. Preferably the candidate studies at the Swiss Federal Institute of Technology (ETH) in Zurich. The respective Microsoft office location will be Zurich.

This vacancy can be filled immediately.

Your responsibilities:

As Senior Student Partner you support Microsoft Student Partners in their Community Engagements, ensure their development and are the interface to Microsoft. Besides the servicing of ongoing processes, this position offers a lot more. Like in no other Working Student position you get the chance to actively impact the development of a global subsidy program for students and collaborate with talented students from the field of technology.

Your scope of freedom offers you the opportunity to set individual priorities on the intersection of Microsoft and Students in Switzerland. Of course, this includes a wide range of responsibilities which can be divided in consultation with your team.

Mistakes reserved. Document Version: 16.01.2018

Main Tasks:

- Setup and lead a regional MSP Team including the strategic long-term development as well as the operative business.
- Development, creation and controlling of projects which might include technical projects (software development) and events (e.g. hackathons)
- Self-governing preparation and implementation of events for and with customers and students on different places in your region
- Technical training and development of Microsoft Student Partners

The diversity of responsibilities allows to extend individual areas of expertise and the exploration of new fields.

Your Profile:

- You pursue a degree in the field of technology, mathematics or comparable
- Your study will take at least 2-3 semesters
- You gained first experiences in internships or have professional experience with the coordination and implementation of projects in the field of IT
- You are a software developer and have know-how as well as the willingness to improve your skills.
- You have empathy and an understanding for technical audiences in an academic environment and affinity for Microsoft technologies
- You have profound knowledge of Microsoft Azure and are enthusiastic about cloud technologies
- Learning about recent technologies like cloud services, bot technologies and machine learning delights you
- You work in a structured and self-organized way with a claim for quality, precision and reliability
- You have a high problem-solving competence, analytical strength and the ability to connect technology and business matters.
- Language proficient knowledge of English in speech and writing, other languages like German is a plus.

Microsoft is an employer that promotes equality and diversity among its employees. We want to welcome you to an international work environment that is marked by flexibility and a dynamic culture.

It does not matter if you work at a Microsoft office, a customer's site, in your home-office or the small coffee shop next door – Microsoft gives you the control over your preferred working place.

Microsoft Germany – your start

Microsoft Switzerland is part of the Western Europe Region and has been a key enabler of the market IT growth through solid partnership with Governments, Enterprise, Small and Medium as well as IT partners and consumer partners in the region.

Student Explorer Program (STEP) at Microsoft

As a working student you are a full member of the Microsoft Community. You dip into our exciting business, get intensive support and create a meaningful network. You can exchange ideas with experts, get to know other interns and working students at networking events and of course fun will not come up short!

You share our passion and vision?

Send us an E-Mail and apply today. We are looking forward to meeting you!

Please send us your application documents (at least a letter of motivation and a current CV) preferably by mail to: KayGiza@microsoft.com
