

**Digital payment technology comes in many shapes.
You'll find them all at Gemalto.**

Gemalto is world leader in digital Security. Gemalto protects more data, transactions and identities than any other company, supporting 3,000 financial institutions and secure more than 80% of the world's intra-bank fund transfers. The world's leading software applications are protected by Gemalto.

With EMV as the underlying technology, Gemalto supply a complete range of form factors to accommodate their client's specific constraints and business requirements, as an issuer of payment tools. By offering frictionless and convenient strong authentication combined with risk management, Gemalto's eBanking solutions protect online banking customers from external attacks and guarantee an ideal balance between a user-friendly and secure online experience.

Be part of the successful team in Switzerland, Zurich area, and enjoy our dynamic international environment in the role of a

Project Manager & Technical Consultant (m/w)

Your key objectives of this function is to ensure successful project delivery at high customer and stakeholder orientation and satisfaction; to provide technical consulting, technical services and technical guidance to customers, partners and internal stakeholders during pre-sales phase, project runtime and after sales; to make an innovative contribution to the development of new or existing solutions and services. Managing and leading all project stages, from pre-study, consulting to successful handover is the main part of your job.

We are looking for a self-driven, success oriented, well organized and autonomous personality with a positive attitude and good networking and co-operation skills. A minimum of 5 years professional experience in the high-tech industry and a minimum of 3 years of experience in leading complex ICT/Software projects in a customer focused environment are required. A higher degree of an university or FH is required, preferably in computer science or electronics. Fluency in German (native speaker level) and excellent English skills (level C1) are a must.
