

MAKERS IN MOTION

Ewellix is a global supplier of Linear Motion and Actuation solutions used in Industrial Automation, Medical Applications, Mobile Machinery and Distribution. The Ewellix Group consists of 16 sales units and 9 factories. External net sales are approximately 2.3 SEK billion and we employ around 1400 people. Ewellix is headquartered in Gothenburg, Sweden and is owned by Triton Partners. In Liestal, Switzerland, we are leading the Product Innovation team for linear actuators; telescopic pillars and control units. Our offer grows strongly in Industry 4.0 related products and dedicated medical applications. We are currently looking for a

Safety & Regulatory Compliance Manager

What you will do

You will contribute to the company's overall goals and strategy:

- Approvals of our new products in collaboration with our product development team
- Maintaining existing product approvals throughout the entire life cycle
- Develop and maintain the UL Client Test Data Program for IEC 60601-1
- Approving Compliance and Conformity Declarations
- Benchmark current industry trends with impact to the product compliance landscape
- Train and support the organisation on product compliance related aspects
- Prepare and/or review instructions for use and product labels
- Review product, design and manufacturing changes and determine filing requirements
- Customer support on regulatory questions related to our products

Who you are

To be successful in this role you need the following qualification :

- Bachelor in electrical Engineering
- Experience in preparing regulatory submissions for medical devices
- Experience in preparing and reviewing product conformity documentation related to the Machinery, Voltage and EMC Directive
- Experience with UL follow-up service and UL Client Test Data program
- Experience working with regulatory authorities
- Ability to prioritize projects, coordinate multiple projects simultaneously and work with tight deadlines
- Good communication skills in German and English

What you will like about working with us

We offer a challenging and multifaceted position within an international work environment as well as the personal development opportunities of a multinational group.
