

For the extension and strengthening of our Construction Management at Ovivo Switzerland AG in Aesch, BL, we seek for a dedicated person as a

Construction Manager / Site Supervisor

About Ovivo

OVIVO is a leading global provider of customized technologies, solutions and services in the treatment of pure, ultrapure, potable and waste water. It operates in some 21 countries with approximately 800 employees.

Your tasks

- Overseeing the construction of water treatment plants, from its beginning to hand-over
- Providing technical support to our customers during construction
- Supervising the maintenance, repair and troubleshooting of piping systems

Your skills and assets

- Apprenticeship or basic training as pipe fitter with several years of professional experience
- Experience in assembling of thermoplastic piping such as PVC, PP, PE and PVDF
- Experience in the erection of pure and ultrapure water installations is an advantage
- Dynamic and flexible personality with the ability to work under pressure
- Very good English and German skills
- Willing to work abroad for longer periods of time (80 % of your working time)

We offer you

- Extensive on-the-job training
 - Challenging tasks with a high level of responsibility in a global working environment
 - Opportunity to work with the latest technologies in water and wastewater treatment
-

We look forward to your electronic application, if your profile matches the above. Please send it to:
