

**GF Machining Solutions is the world's leading provider of machines, automation solutions and services to the tool and mold making industry and to manufactures of precision components. The product range from electric discharge machines, high-speed and high-performance milling machines, including clamping and palletization systems, 3D laser surface texturing machines, services, spare parts and expendable parts, consumables and automation solutions. As a globally active group, GF Machining Solutions, a consortium belonging to Georg Fischer Group (Switzerland), maintains a presence on 50 sites worldwide within its own organization.**

To strengthen our product management we are looking for a team-oriented personality as

### **Product Manager (m/w) 100%**

Your tasks:

- You are responsible for a strategically important product group "from A-Z"
- In your role, you are responsible for launching our products across our sales and ensuring the long-term success of the product life cycle
- You analyze the market and competition situation and are responsible for the positioning of our products.
- You monitor the market, sales forecasting and define target groups and corrective actions
- You are the contact person of the technical departments, the sales companies and the management and offer them targeted solutions in all product-relevant questions
- You take an active role within the "design thinking process" of new products or options
- You create technical documentation, configure price/offer structure, plan and execute product training, as well as participate in trade fairs
- You are considered internally and externally as "first" vendor of the product.

Your profile:

- Technical Education with further training in Marketing (minimum level Bachelor)
- Experience as Product Manager in B2B Business, especially industrial sector
- You act openly and innovatively and implement appropriate activities in a solution-oriented manner
- Business fluent in English and German, good knowledge of French
- Dynamic and flexible with a willingness to travel of 20-30%

If this challenging position in a multi technology group meets your professional goals, please send your application to:
